

WHY YOU NEED INTERNATIONAL MEDICAL COVERAGE

International travel and relocation have become common, if not routine for both groups and individuals from all nationalities. Unfortunately, many travelers are misinformed or unfamiliar with how their private/nationalized health insurance schemes will actually pay a claim that is incurred outside their home country. For example medical treatment in the United States is extremely expensive and is usually provided through managed care facilities and networks that may not recognize your insurer or insurance plan.

In this scenario, the medical facility would demand payment up-front prior to giving you treatment for your medical condition, essentially denying you or your family coverage until financial arrangement can be made. It should also be noted that certain U.S. visas require verification of health insurance coverage prior to coming to the United States.

Finally, supplemental travel insurance purchased outside the United States may not adequately reimburse you or your family for the expensive medical costs incurred in the U.S.

1. Charges made by a Hospital for room and board, floor nursing and other services, including charges for professional services, except personal services of a non-medical nature, provided, however, that expenses do not exceed the Hospital's average charge for semi-private room and board accommodation, or two (2) times the average semi-private room charge if confinement to an intensive care unit is required, or the actual charge for an intensive care unit made by the servicing Hospital, whichever is less;
2. Charges made for diagnosis, treatment and surgery by a Physician;
3. Charges made for the cost and administration of anesthetics;
4. Charges for medication, x-ray services, laboratory tests and services, the use of radium and radio-active isotopes, oxygen, blood transfusions, iron lungs, and medical treatment;

With regard to chiropractic care, if recommended by a Physician for the treatment of a specific Disablement and administered by a licensed chiropractor, 80% of eligible charges up to \$35.00 per visit, with a maximum of 10 visits per Injury or Illness is allowable. The charges enumerated above shall in no event include any amount of such charges which are in excess of Regular & Customary charges. A charge incurred by an Insured shall be deemed a regular and customary charge for the services and supplies for which the charge is made if it is not in excess of the average charge for such services and supplies in the locality where received, considering the nature and severity of the Illness or bodily Injury in connection with which such services and supplies are received. If the charge incurred is in excess of such average charge such excess amount shall not be recognized as Covered Expenses. All charges shall be deemed to be incurred on the date such services or supplies which give rise to the expense or charge are rendered or obtained.
